## INTERNATIONAL AEM

LONDON

Welcome to the International AEM London 2023 and thank you for joining us!

It is with great pleasure that we welcome you again to London for the 5th edition of our International AEM (Advanced Endoscopy Masterclass); a comprehensive, major educational event with the participation of a stellar faculty of highly acclaimed international and national speakers to showcase state-of-the-art advanced endoscopy.

As witnessed through the quality of the previous 4 editions, and the universally positive feedback received each year from over 340 delegates from 40 countries, 50-strong faculty, and sponsors, the International AEM London has proven itself time and again, to be an unmissable event.

We are delighted with our new location for 2023: 'The Hallam Conference Centre', a superb venue to serve even more room for hands-on training, exclusively ours for the event.

For this 5th edition, in line with overwhelming requests for more of the unique hands-on training format that our International AEM London has been globally acclaimed for, the format will consist of two consecutive days of one-day hands-on training courses, all running in parallel; each also having their own dedicated supporting lectures. The hands-on training courses will include two individual days of ESD, one day of capsule endoscopy, one day of endotherapy for haemostasis, one day of ERCP & EUS, and one day of endoscopic suturing/sleeve gastropasty (ESG).

In collaboration with Jichi Medical University (JMU), Japan, the International AEM London shall continue to host the world's first-and-only ESD hands-on training course dedicated to the revolutionary 'pocket creation method' (PCM), as developed and taught by its creator, Prof Hironori Yamamoto himself, our key guest.

This hands-on and direct interpersonal focus, characteristic of the AEM is now also reflected in our original and unique, relaxed networking evening.

Once again, welcome to London for the 5th edition of this comprehensive educational event!

Sincerely,

Dr Edward J. Despott  
International AEM Director

Dr Alberto Murino  
International AEM Director

Dr Nikolaos Lazaridis  
International AEM Co-director
